STREAM BASE

HOME THEATER AND STREAMING IN HIGH-FIDELITY FOR YOUR TV

High-fidelity sound in a compact format right beneath your TV screen (up to 42in). Ideal for watching and listening to TV, discovering thousands of radio stations or streaming your favorite music.

Cabasse

STREAM BASE

THE HIGH-FIDELITY SOUND OF OUR TV

Pioneer and specialist of active multi-way Hi-Fi and pro loudspeaker systems for 60 years, Cabasse has designed for Stream BASE a stereo solution involving 4 active ways per channel. The active filtering of the Base ensures a spectacular sound quality by individually controlling the dome tweeter, the midrange and the low-midrange units of each channel. In home theater mode, the Cabasse holographic sound processing enlarges the width and the depth of the sound stage, while dialogs remain clear and effects keep on being forceful. The low frequency channel fitted with a long throw 13 cm woofer firing downwards at 360° brings substance and realism to the special sound effects.

HIGH-RESOLUTION STREAMING AND CABASSE HIGH-DEFINITION

When connected via LAN or WLAN to the home router, Stream BASE gives instant access to all the music stored in the network, to thousands of international radios, to audio streaming with Deezer, Qobuz, Spotify and Tidal. The USB input gives direct access to the music stored on a stick or a hard drive disc and play it on the BASE or on any Stream device in the home network. The Bluetooth Aptx function provides an easy and performing connection to smartphones and tablets.

SPECIFICATIONS

Drivers	2 x tweeter + 4 x low-mid/midrange + 1 x woofer
4-way active amping	2 x 10 W + 2 x 15 W + 2 x 15 W + 40 W
Frequency response	50 - 20 000 Hz
Maximum sound pressure level	98 dB
Dimensions (h x w x d)	8,6 x 65 x 29 cm
Weight	8,6 kg
Distortion rate and noise (THD+N for the 20-20,000 Hz bandwidth and for 100 mW power output and more)	WLAN/LAN : < 0.1% Bluetooth : < 0,1% Analog : < 0.1% Optical < 0.1% THD+N

HDMI	4 x digital stereo: Bluetooth AptX - WLAN/LAN USB - Dolby Digital Optical S/PDIF 1 x analog stereo mini-jack
Inputs	WMA (WMA9, CBR, VBR, up to 320 kbps), MP3 PCM (16 bits-44.1 kHz, 24 bits-44/48/96 kHz WAV, AIFF, AIFC, HTTP files) AAC-LC (up to 320 kbps), ALAC (.m4a) FLAC (16 bits-44.1 kHz, 24 bits - 44/48/96 kHz)

10/100Mb network Ethernet - MAC & PHY - Wireless LAN 802.11b/g/n - WPS 2.0 security
Digital media renderer (complies with DLNA 1.5)
