

Cabasse

ZEF 13 / ZEF 17

CABASSE SOUND FOR OUTDOOR

Designed by the sea in the Cabasse Acoustic Center, Zef 13 and Zef 17 are the ideal solution for high quality sound diffusion in rough conditions, either inside or outside. The famous reliability of the technical solutions developed by our R&D department is a guarantee for longevity. The quality of the components involved offers a maximum sound pressure and a low frequency extension you would not expect from such a tiny volume, with a respect of timbers and a sound stage most hi-fi loudspeakers would be proud to claim.

Cabasse

ZEF 13 / ZEF 17

HIGH FIDELITY IN ROUGH WEATHER CONDITIONS

Zef speakers were developed to support rough weather conditions and to guarantee over time the quality of Cabasse sound in indoor or outdoor use. All components were tested and validated according to the strictest standards. The aluminium grill and bass reflex event were designed to bring you the best efficacy without the risk of water ingress. Chose from our 2 finishes and enjoy Cabasse sound quality on your terrasse.

VERSIONS HAUTE IMPEDANCE

The TR versions are adapted for professional use in line with 70 or 100 V. The commutateur is easily accessible on the front of the speaker so you can set the power without removing the speaker. You also have the choice to chose for low impedance in case you want to focus on High Fidelity.

TWO MOUNTING WAYS

Either installed in vertical or horizontal position, the « U » shape bracket enable an easy and solid mounting. The Zef 13 and Zef 17 can be adjusted up to 90°.
